

LABioMed
Los Angeles
Biomedical
Research Institute
at Harbor-UCLA Medical Center

What others say about...

LA BioMed

“LA BioMed is a pioneer in research that benefits the underserved in our society, and it is leading the way in turning great science into great medicine.”

Mark Ridley-Thomas
Los Angeles County Supervisor

“LA BioMed is one of Los Angeles’ real gems. Its physician-researchers take the knowledge they gain at the bedside of their patients into the labs where they develop therapies and treatments that will improve the lives of people around the globe. We are fortunate to have such an outstanding research facility located in the heart of the South Bay.”

Don Knabe
Los Angeles County Supervisor

“LA BioMed makes a powerful contribution to our economy, in addition to its many contributions to our communities through its research, training of young scientists and immunization initiatives.”

Bill Allen
President
Los Angeles Economic Development Corp.

“LA BioMed is a leader in translating discoveries into new treatments and improved therapies for disease.”

Jane Harman
U.S. Representative
D-Venice

“With the miracles you are making every day, you are touching people all over the world.”

Scott Hamilton
Olympic championship skater and cancer survivor
praising LA BioMed researchers

“LA BioMed changed my life.”

Juanita Gougis
Sickle Cell Patient
Benefitted from treatment developed at LA BioMed

“My children have thrived. We appreciate Dr. Kakkis and all who work for life-saving cures. We thank you. Your research has truly made a difference.”

Tami Slawson
Mother of two grown children who benefitted from a breakthrough treatment
Dr. Emil Kakkis helped develop at LA BioMed

“We felt extremely fortunate to have LA BioMed's researchers working with our team to develop this innovative improvement in health care.”

Art Papier, MD,
Chief scientific officer for Logical Images,
developer of a new iPhone application,
which helps doctors diagnose disease

What the faculty says about...

LA BioMed

“By providing the necessary tools and infrastructure, LA BioMed allows our faculty to advance medical care through research.”

Adam Jonas, MD
Pediatrics

“Many of the important health breakthroughs and discoveries of the future will emerge from the minds and diligence of researchers who embarked on their journey of discovery at LA BioMed.”

Kouichi “Corky” Tanaka, MD, MACP
Medical Oncology/Hematology

“LA BioMed is more facile and supportive of emerging researchers than almost anywhere else. Things can happen very quickly here.”

Noah Craft, MD, PhD, DTMH
Dermatology/Adult Infectious Diseases

“Today’s biomedical research discoveries at the bench are rapidly translated into clinical research, adopted as best practices and accepted by the community. As LA BioMed fulfills its mission, research turns to the promise of better medical care.”

Christina Wang, MD
Endocrinology

“LA BioMed’s location in a truly international metropolitan area is critical to its research enterprise. The breadth of ethnic, racial and socio-economic diversity found in the patient populations served by the Harbor-UCLA campus is unparalleled.”

Rowan T. Chlebowski, MD, PhD
Oncology

What donors say about...

LA BioMed

“The research at LA BioMed is really compelling Loraine and I have been so impressed by the dedication of these individuals...We are so pleased to be able to play a part in addressing these terrible disorders.”

Ralph Scriba
Businessman
Donor, along with his wife, Lorraine

“It is quite a responsibility to find the right place to donate, and finding LA BioMed was a blessing. We’re confident of the ability and quality of the people and feel fortunate to be a small part of supporting their work...The research is relevant and timely.”

Tina McFarlin
Susan Scott Foundation
